Economics graduate with published research on cryptocurrency adoption across 26 countries and hands-on experience in business development, partnership management, and revenue generation. Proven track record managing high-value institutional partnerships and driving measurable commercial results. Passionate about the crypto/ fintech ecosystem and eager to contribute to business development in a fast-paced exchange environment.

Education

Universitas Sebelas Maret - Surakarta, Jawa Tengah

Jun 2021 - Jan 2026

Bachelor of Economic Development, 3.68/4.00

- Analyzed economic and financial determinants of cryptocurrency adoption across 26 countries spanning emerging and developed markets, including regions across Europe, Southeast Asia, and Central Asia, over the period 2021 to 2024.
- Identified key adoption drivers including mobile connectivity, GDP, and economic freedom, building a data-backed understanding of why and where crypto adoption grows fastest.
- Findings highlight crypto's dual role: as a portfolio diversification tool in developed markets and as an alternative financial system in markets with limited access to traditional banking, directly relevant to understanding exchange growth opportunities across regions.
- Published as a working paper on SSRN, demonstrating strong research, analytical, and written communication skills applicable to market analysis and partner due diligence.

Internship

Wirausaha Merdeka (WMK) - Ministry of Education and Culture RI - Yogyakarta

Sep 2023 - Dec 2023

- Conducted market research and competitive analysis to launch a design service venture from prototype to revenue-generating operations within a government-backed entrepreneurship program.
- Acquired early-stage clients through customer segmentation and targeted go-to-market strategies, demonstrating commercial execution capability.
- Self-taught digital design and service delivery within weeks, demonstrating rapid domain adaptation under time-pressured conditions

Organizational Experience

Artefac UNS - Surakarta, Central Java

Oct 2023 - Oct 2024

Project Officer Business

ARTEFAC (Art and Sport Appreciation) is one of a series of events consisting of basketball and futsal competitions, monologue competitions, and closed with concerts by well-known artists. The event was organized by students of the Faculty of Economics and Business UNS and became an annual event.

- Built and managed high-value institutional partnerships with Tier-1 national brands through structured outreach, needs analysis, and negotiation, directly applicable to partner and KOL acquisition.
- Led a 28-person team across fundraising, ticketing, and sponsorship divisions to hit aggressive revenue and operational targets.
- Generated IDR 1.95B in total revenue with 21.8% ROI against a IDR 1.6B budget through a data-backed go-to-market strategy.
- Developed pricing and distribution strategies for 12,500+ units sold, using market segmentation and demand analysis.
- Recovered from a prior-year deficit through systematic, metrics-driven turnaround initiatives.

Artefac UNS - Surakarta, Jawa Tengah

Oct 2022 - Mar 2023

Project Officer Business

ARTEFAC (Art and Sport Appreciation) is one of a series of events consisting of basketball and futsal competitions, monologue competitions, and closed with concerts by well-known artists. The event was organized by students of the Faculty of Economics and Business UNS and became an annual event.
